

# LOOMIS BASIN TRAILS TASK FORCE - PLEASE HELP US FIND TRAILS

We are gathering as much information as possible about existing and potential trails in the Loomis Basin. We will be presenting this information and a detailed map to Placer County in September as part of the County's study of trails policy. We will also present it to the Town of Loomis, which is extremely interested in creating a linked trail system. The Loomis Basin needs a trails system which is linked and provides safe, enjoyable walking and riding for our community. The vision is a network of "Rural Sidewalks" for all of us to use and enjoy. This is a HUGE opportunity to help create such a system. Mapping and describing an existing or potential trail makes it far more likely that the trail will be created by the County, the Town, developers and willing easement donors. If they don't know it's there, it's not likely to happen. Please share your favorite trails and trail proposals

1. If you are now riding, walking or running a trail which may not be mapped
2. Know of a potential trail that might create a nice "loop" if a segment was added
3. Know of a trail which provides an alternate or separated route to busy roads
4. Know of a trail which provides access to a location like schools, stables, parks, parking and staging areas, local businesses, homes etc.
5. If you can suggest feasible trails which would serve any of these purposes

Please fill out form and then hit the Send by Email button. You can also save the file, then attach it to an e-mail to lbha@vfr.net. Lastly you may print the form and then mail it to Loomis Basin Trails Task Force 9217 Los Puentes Rd, Newcastle CA 95658 or fax it to 916-663-3417

First Name  Last Name   You may use my name  
e-mail  Phone Number   Keep me informed/I would like to help with this project

- TRAIL EXISTS, BUT MAY NOT BE ON A FORMAL MAP     I WOULD LIKE TO SEE A NEW TRAIL HERE     TRAIL IS PROBABLY A FORMALLY MAPPED TRAIL     OTHER - PLEASE BE SPECIFIC AS POSSIBLE

Town or unincorporated area of Placer Co. where trail is located

Actual description of where trail is located - streets, land markers, length, connecting trails, type of trail (eg narrow dirt, along quiet street, dirt road, along irrigation canal.)

Why is this trail important to the area

Other Comments - Examples- owner likely to give an easement, logistical problems at bridge or intersection.

Please suggest other groups or groups to contact - name/e-mail/phone
